

RSPO Auditor Confirms Lonsum is in full Compliance with RSPO Principles and Criteria and Indonesian Legislation

On behalf of the management of PT Salim Ivomas Pratama Tbk, as a Company listed on the Indonesia Stock Exchange, we wish to commit to our stakeholders that we comply fully with Indonesian Laws and Regulations, and in Compliance to our Sustainability Policy which has the following key Commitments:

- No deforestation and conservation of High Conservation Value and High Carbon Stock areas
- No planting on peat regardless of depth
- No burning
- Respect for Labour and Human Rights including Freedom of Association and discrimination
- Free, Prior and Informed Consent.

We also wish to highlight the key findings of the recent RSPO verification audit as part of the Complaints Panel Process for the case filed to one of our subsidiaries, PT PP London Sumatra Indonesia Tbk (Lonsum), which concluded the following:

Extracts from the Executive Summary of Independent Verification Audit 4th to 7th June 2018:

1. The company has adequate health and safety policies and operating manuals and procedures and generally adheres to the requirement for Personal Protective Equipment (PPE) and is compliant in terms of adhering to the Government regulation on periodical medical tests for workers.
2. The company has shown significant improvement in terms of its treatment of casual workers.
3. The management (Company) is compliant with the minimum wages for permanent workers
4. No evidence of child labour or the exploitation of children in either of the three estates or mill
5. The Company is compliant to the non-usage of paraquat as herbicide. The company has completely phased out the chemical since late March 2018.
6. The verification team acknowledges the strong commitment from the Company in guaranteeing freedom of association for workers in the mill and three estates.
7. **Overall conclusion: In summary, the company has demonstrated a strong commitment to continuously improve its operations in line with the legal and RSPO requirements for sustainable palm oil production.**

In addition, we have 7 labour unions represented workers in our operations, and we have no outstanding issue with our union members. Our workers are free to form and join trade unions of their choice, and to bargain collectively.

Subsequent to the issuance of the report on result of above-mentioned Independent Verification Audit wherein RSPO suspended one of our certified mills, Begerpang in North Sumatra on 2nd November 2018, a regular RSPO certification audit was conducted on 3rd to 7th December 2018 at Turangie palm oil mill and its supply base estates in North Sumatra. The issues raised in the RSPO Complaints Panel (CP)'s decision were also checked & reviewed by the RSPO auditor, given that both these mills (Begerpang and Turangie) are both in North Sumatra operating under exactly the same Company policies and procedures by Lonsum.

Based on issued audit report for Turangie mill and its supply base, which we received on 13th February 2019, it was confirmed that we fully comply with RSPO Principles and Criteria (P&C), ***“PT PP London Sumatra Indonesia Tbk complied with the requirements of Indonesian National Interpretation of RSPO Principles and Criteria (P&C) for the Production of Sustainable Palm Oil and Supply Chain Certification Standard”***.

This is consistent to our letter to the Complaints Panel dated 30th November 2018 whereby we commented as follows:

We are very surprised, and not in agreement with the findings from the audit carried out from 4th to 7th June 2018, as RSPO has previously carried out the following audits since the issuance of the initial allegation report in June 2016:

- 1. 8 Compliance Assessments and Special Audits (three audits were witnessed by ASI), relating to the Complaint in North Sumatra.*
- 2. 15 RSPO certification audits as part of regular RSPO certification process in North Sumatra.*

Based on the above 23 audits (all carried out by accredited RSPO auditors and involving our stakeholders) all of our mills in North Sumatra remained RSPO certified, as there were no material findings to substantiate the allegations, and we have implemented all Non-Conformities (NC's) arising from the above audits. Can you provide an explanation as to the material inconsistency in findings between the verification audit carried out on 4th to 7th June 2018, and the previous 23 audits mentioned above?

We now have 24 RSPO audits from April 2016 till December 2018, confirming our North Sumatra Estates comply fully with RSPO Principles and Criteria. There are material inconsistencies between the results from those 24 audits with the results of the independent verification audit and the RSPO Complaints Panel decision.

RSPO has yet to respond to us on our question as to why the Independent Verification Audit carried out by the RSPO Complaints Panel, has come to a different conclusion resulting in the suspension of one of our mills. We believe the Complaints Panel were unduly influenced by the negative campaign and harassment carried out by the Complainant.

Conclusion :

We maintain our position as verified by the RSPO audit of Turangie Palm Oil mill and its supply base, that we comply fully with RSPO Principles and Criteria and Indonesian Laws and Regulations.

We remain firm in our decision to resign from the membership of RSPO due to our disappointment with the way RSPO Complaints Panel handled the case filed against PT PP London Sumatra Indonesia Tbk, one of our subsidiaries. Moving forward, we have therefore decided to focus our sustainability journey and practices on the implementation of the mandatory Indonesia Sustainable Palm Oil (ISPO) standards.

Inconsistencies Found in the Audit Findings from Two Different Audits Performed in PT PP London Sumatra Indonesia Tbk’s Units, North Sumatra

Independent Verification Audit – Begerpang Palm Oil mill and supply base

Date of audit 4th to 7th June 2018 : Independent Verification Audit to Begerpang Palm Oil mill and supply base estates by appointed independent auditors as part of RSPO Complaints Panel process. The audit findings was used as the basis of the RSPO Complaints Panel’s decision.
